Marble enters the race to bring AI to tax work, armed with \$9 million and a free research tool

VentureBeat – AI · Topic: **AI/Cloud/Quantum**

- **What it is:** Marble is an AI startup that has secured \$9 million in seed funding to develop AI agents and a free tax research tool for accounting professionals.
- **Who:** Marble, an AI startup led by CEO Bhavin Shah and backed by Susa Ventures, MXV Capital, and Konrad Capital, targets the professional accounting sector.
- **What it does:** Marble's platform currently offers a free AI-powered tool that simplifies complex tax regulations into citation-backed answers and plans to automate tax preparation workflows.
- **Why it matters:** Marble addresses the critical accounting labor shortage and increasing regulatory complexity by leveraging AI to enhance efficiency and improve margins for professional tax services.
- **Strategic view:** This initiative highlights the accelerating adoption of AI in conservative professional services, signaling a vast untapped market for efficiency-driven solutions beyond traditional tech and legal applications.
