### [ICE Asks Companies About 'Ad Tech and Big Data' Tools It Could Use in Investigations](#)

Wired – Business · Topic: AI/Cloud/Quantum

- **What it is:** The US Immigration and Customs Enforcement (ICE) is actively exploring commercial ad technology and big data analytics tools for potential use in its law enforcement investigations.
- **Who:** The primary actors are the U.S. Immigration and Customs Enforcement (ICE) and various commercial ad tech and big data solution providers.
- **What it does:** ICE is soliciting information from companies about their advanced advertising technology and big data tools for potential application in government surveillance and law enforcement operations.
- **Why it matters:** This development signifies a growing trend where government agencies like ICE are leveraging readily available commercial surveillance and data analytics technologies for expanded investigative capabilities.
- **Strategic view:** TMT C-level executives must critically assess the ethical, privacy, and regulatory implications as government entities increasingly seek to utilize commercial data and ad tech tools for law enforcement purposes.
