3 deep-dives you should really read

Nokia CTO wades in on physical AI

Fierce Telecom · Topic: **Telco/5G**

- **What it is:** A strategic vision statement from Nokia's CTO regarding advanced network requirements for future 'physical AI' applications.
- **Who:** Nokia (via its CTO) articulates future network demands for industrial automation, impacting enterprise customers deploying physical AI robots.
- **What it does:** It highlights the critical need for 5G networks to deliver ultra-low latency (microseconds) to enable real-time decision-making for physical AI robots in industrial settings.
- **Why it matters:** Explains impact for Telco/Media/AI decision-makers.
- **Strategic view:** Track how this evolves across Telco/5G.

Spire to build eight satellites for Deloitte's on-orbit cybersecurity program

Space News – Satellite / Launch · Topic: **Space/Infra**

- **What it is:** A strategic partnership and product development focused on expanding a unique on-orbit cybersecurity satellite program for critical space infrastructure.
- **Who:** Spire Global, a satellite data and analytics company, is building satellites for Deloitte, a global professional services firm.
- **What it does:** Spire will build eight satellites to expand Deloitte's dedicated on-orbit cybersecurity program, enhancing protection for space assets and infrastructure.
- **Why it matters:** Explains impact for Telco/Media/AI decision-makers.
- **Strategic view:** Track how this evolves across Space/Infra.

Akamai gears up for edge AI with new inference cloud

Fierce Telecom · Topic: **Telco/5G**

- **What it is:** Akamai is launching a new specialized product offering, the Akamai Inference Cloud, for edge AI inference capabilities.
- **Who:** Akamai is the primary actor, introducing this new service to capitalize on the rapidly growing edge AI market.
- **What it does:** It introduces distributed AI processing closer to data sources, enabling real-time inference at the network edge for various applications.
- **Why it matters:** Explains impact for Telco/Media/AI decision-makers.
- **Strategic view:** Track how this evolves across Telco/5G.
